Windows system

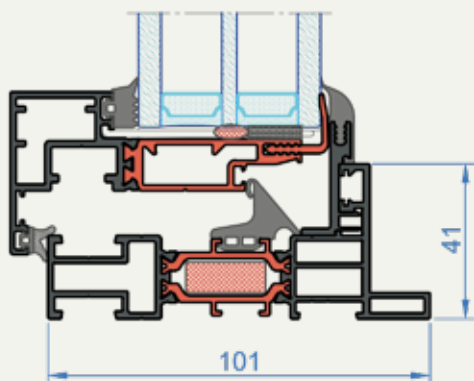

UNI SL system is a part of A+ Family windows offering high performance, durability and aesthetics for various applications.

A+ Family windows were designed to deliver narrow aluminium framing, available in numerous variants and frame depths with a choice of colours and finishes.

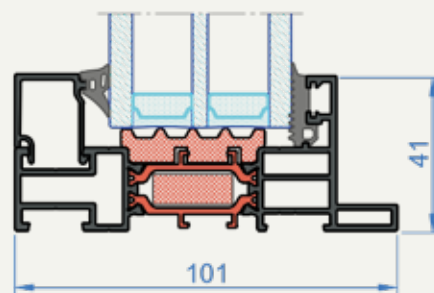

- **Framing** – narrow window profiles with 41 mm sightline
- **Visual effect** - industrial design imitating vintage steel windows
- **Diverse applications** – single window, fix-partition or integrated into the AW50 facade system
- **Part of A+ Windows Family line** - „UNI SL” is an extended version of „UNI” system
- **Various colours and finishes** – aluminium profiles available in diverse RAL colours and anodised
